

Dear Colleagues,

Thanks to the brotherly friendship that unites European Universities and thanks to the trust of the WFLD Board Committee, I have the honor to chair the next Congress of the European Division of the World Federation for Laser Dentistry – WFLD that will be hold on May 27th, 28th and 29th at the Congress Centre of Montpellier métropole (France) with the sponsorship of Montpellier University of Excellence and with the support of many universities and partner associations of this international event.

This congress will be held in the beautiful Congress Centre of Montpellier “Le Corum” and our ambition is that it must be an international scientific meeting for the WFLD but also a fraternal and sympathetic stay in our beautiful region of Occitanie.

The Congress Centre is located near the City Centre, the old streets and many shops where it’s good to go and stay on a shaded terrace. Historic metropole with the oldest active faculty of Medicine, the city of Montpellier is open to the mountains of the Herault and a nearby Mediterranean Sea.

Many visits are possible: The Herault Valley and St Guilhem the desert to the North Sète and the Cap d'Agde to the West ... La Grande Motte and the Camargue to the East....Many activities can be offered during your stay: International golf, Sails, nautical activities.... or relaxing on the sandy beaches.And always the quality of life in the South Mediterranean with our wonderful seafood associated with high quality viticulture recognized worldwide.

With the entire organizing team of the WFLD-ED 2021 congress, we are waiting for you in Montpellier for wonderful moments of friendship ... and life!

Dr Gerard Rey (Chairman of the congress)
