

THE 17TH CONGRESS FOR
THE WORLD FEDERATION
FOR LASER DENTISTRY

www.wfld2023.com

Dear Colleagues and Friends,

On behalf of the Polish Society for Laser Dentistry – PTSL, we would be honored and happy to invite you to the 17th WFLD World Congress, which will be held in the charming city of Wrocław in Poland, between the 14th and 16th of April 2023.

We have put in a lot of effort and thought into the scientific program of the Congress wanting to leave a lasting impression. The scientific program specifically designed for this event will cover all aspects related to the use of laser in a dental practice, including face aesthetics, as well as an event that we are truly proud to present: the 2nd International Academy of EMDOLA (European Master Degree in Oral Laser Applications), where graduates, both students and teachers will share their scientific and clinical experience with the audience. In addition to international scientific conferences - practical courses, oral presentations of our young academic colleagues and poster presentations will also take place at the Congress.

During the Congress, our valuable sponsoring companies will be waiting for you in the exhibition area to share and present their newest products and technologies with special applications.

The Gala night, as the event of our social program that you are always excitedly waiting for, will be prepared with care to gain your admiration, so please be open to surprises!

The 17th Congress of WFLD shall be a great opportunity to meet old friends and new colleagues from all over the world through sharing the same passion for scientific and clinical applications of lasers.

I look forward to meeting you in Wrocław soon.

With love and respect,
Kinga Grzech-Leśniak, DMD, MS, PhD

Chairman of the Organizational Committee
President of the Polish Laser Society
